

# The power of Partsbook on your domain

Turn your domain into a global marketplace.

With Private Label, using the same powerful engine as Partsbook your customers search your website for the parts that you, and only you have for sale. Our powerful yet simple integration tool makes it easy to display inventory level, condition, and location. Your site has the same ease of use as Partsbook, but for only your parts, and with your branding and design.

Upgrading is easy and fast.

You'll be set up and running in no time and we'll fully support you going forward. We're here to assist with your inventory upload, employee accounts, integrating your existing customers, and we can even pre-load your pricing so they can skip the RFQ process and get right to purchasing.

## Outpace Your Competition

- Your domain branded with your logo
- Only your parts are listed on your site
- Free Enterprise subscription on Partsbook
- Decide where your parts are available: only on your site or also on Partsbook

## Allow Sales to Come to You

- Reach a global audience
- Block customers you're not interested in
- List one million parts or more
- Set validity and incoterms for each quote
- Pre-load customer specific pricing
- Allows quick re-order without re-quoting

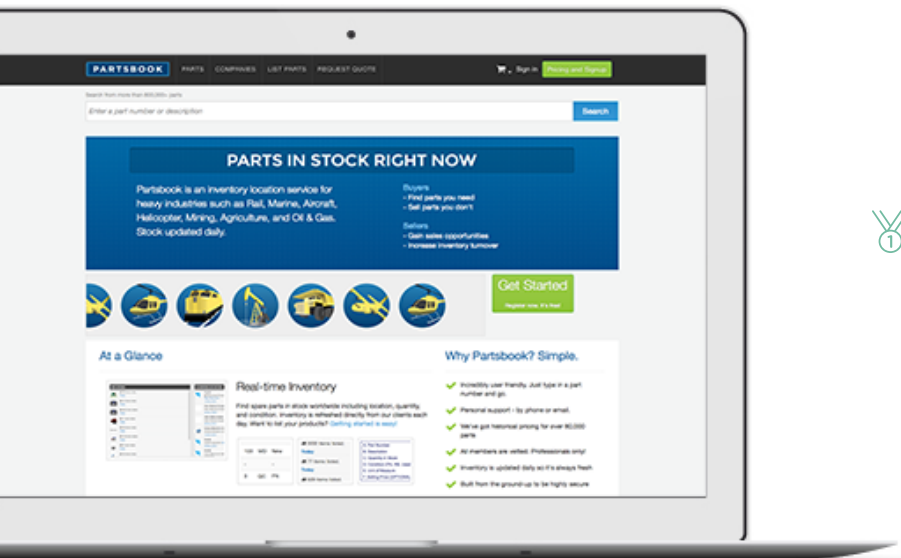

## Keep Security Nightmares at Bay

- Twice-encrypted passwords for added security
- Pricing stays entirely private and protected
- Messages are visible only to your company
- Optionally secure all web traffic using SSL

## Organize all Your Orders and RFQ's

- All your data, all in one place
- Attach photos, PDFs, etc to any communiqué
- Search histories by customer or part number
- Capture historical pricing insights
- Export data to CSV for your legacy systems
- New features are being added constantly

### Partsbook - Heavy Industries. Tons of Parts.

Partsbook is an inventory location service for heavy industries, with over 950,000 parts for machines dedicated to Agriculture, Aeronautics, Mining, Rail, Oil & Gas, Maritime and more.

Our Private Label program allows companies to sell only their stock without competition, but with the full functionality of Partsbook.
